

MedopAir I MedopAir II

Half Masks

wecare

100%

DESIGNED AND MADE **IN**
SPAIN BY MEDOP.

**WHERE INNOVATION MEETS
USER COMFORT**

R+D+I DEPARTMENT

RESPIRATORY PROTECTION THAT IS HIGHLY COMBINABLE WITH OTHER PPEs

GREATER BREATHABILITY

Low resistance due to exhalation valve for efficient heat and moisture dispersal.

EASY TO USE

Maximum comfort, light and a perfect fit.
Ergonomic study done on the contact area.

EASY TO COMBINE

Adjusts perfectly to other PPEs.
Excellent respiratory protection to combine with any eyewear model.

BAYONET CLOSURE: guided connection, quick and easy to open and close. Totally safe, completely hermetic.

TPE MATERIAL: very soft and pleasant to the touch. Hypo-allergenic and odourless. Low maintenance, easy to clean and long-lasting. Highly recyclable material. Valid for working with paint.

ONE SIZE adaptable to a great range of physiognomies.

HEAD STRAP with curved design that distributes the weight to provide greater comfort.

WIDE FIELD OF VISION thanks to the placement of the filters.

TWO VERSIONS: 1 filter (113 g) and 2 filters (126 g)

MEDOP RECOMMENDATIONS

Medop recommends spectacles with anti-fogging coating for use in conjunction with the MedopAir II half mask respirator and would like to highlight the following models for their benefits:

XTREME HYBRID
Neutral version with anti-fogging (N) coating and prescription version with Antifog.

KIBO
With anti-fogging coating (N).

KAMBA
With anti-fogging coating (N).

Bayonet filters valid for MedopAir I half mask

EASE OF BREATHING
HIGH GAS RETENTION CAPACITY
VERY COMFORTABLE

ERGONOMICS

Thanks to the off-centre filter connector, filters are located on the sides in order to clear the field of vision and to allow better compatibility with other PPEs thanks to the lower amount of peripheral space occupied.
