## MEDOP AIR II

- **Wide field of vision** thanks to the placement of the filters.
- **Highly compatible** with other PPE thanks to its compact design.
- **Low resistance while breathing** for greater comfort.

Use of half masks + P3 Pad filter vs. filter masks:  
**54% actual yearly savings.**

### FILTER MASKS

1/day

### HALF MASKS + FILTERS

1 half mask every 3 months  
1 pair of filters every 3 weeks

**54%**  
YEARLY COST  
SAVINGS  
PER WORKER

According to Medop's respiratory solutions price list. **240 work** days per year.

## LONGER- LASTING PROTECTION

	Self-filtering FFP3	P3 Filter
Maximum permitted % penetration according to regulations of the pollutant being tested (Lower percentage = greater protection)	1%	0.05%
BREATHABILITY (breathing resistance in mbar)	1	1.2
Quantity for 3 weeks of protection*	 x15	

\* Study conducted by Medop in collaborating industries from different sectors in 8-hour working days.

## THE LONGEST-LASTING ANTI-FOGGING AGENT

When using combined respiratory and eye protection, Medop recommends wearing neutral glasses with anti-fogging coating or prescription glasses with anti-fog coating: **12 back-to-back hours** of the best anti-fogging protection.
