DIGITAL MANAGEMENT OF ORDERS

Differential service

Possibility of offering this tool to the industries, standing out from the competition thanks to this added value.

Simplicity

Guided process for data entry, very intuitive and easy.

Simplification

Full management of the entire process, from certification of the product to delivery of the spectacles.

Shorter delivery times

Orders are automatically integrated in the system for immediate production.

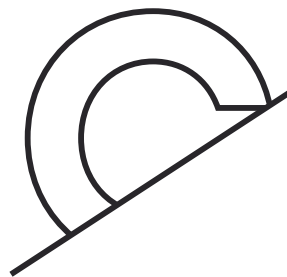

Control of prescription vouchers

How many are pending validation, prescription complete, validated, etc. Status of pending orders, prescription complete, processed or cancelled. Order log: access to all order information.

Reduction of processes

No need of extra emails and processes.

COATINGS

repels water drops , dust, grease and dirt

Avoids lens fogging

Reduces harmful light in addition to repelling dirt and grease

| Repels water and dust | Prevents fogging | Blocks blue light | Repels water and dust |
