| Conservation Storage - Expiry | Store in original container, protecting the visor. Store at room temperature in a dry place. The useful life of the replacements depends on their use and wear in accordance with the person, the type of work, degree of perspiration, etc. Medop recommends keeping replacements that are in contact with skin as clean as possible. | | | | | |
| Directions Use | Visors: clean using tepid water and a neutral soap. Do not use abrasives or solvents. It is also recommendable to use specialised products: for example, Medop anti-fogging cleaning spray (910.574). Replacements: come with a Velcro strap. Undo the Velcro strap and place the replacement in the front part of the adapter with the Velcro facing the front (the operator's forehead must be in contact with the part of the replacement that does not have Velcro). Adjust the Velcro, positioning the replacement in the front part of the adapter. | | | | | |
