## Prescription eye protection

### Description and composition:

**Panoramic goggles in polypropylene with face-wrapping adjustment in TPE:** very resistant and flexible spectacles.

**Adjustable-height inner clip for prescription lenses:** allows user adaptation; maximum comfort for prescription spectacle users.

Frames with **indirect ventilation** sides: avoids condensation both on the outer lens and on the prescription lenses.

2.5 cm **elastic polyester headband**, adjustable to the user, with **quick release system:** speed and comfort.

Wide **polycarbonate lens** for 180° vision with no limitations.

**Interchangeable solar and clear lenses (UV 400): offering 100% protection against harmful ultra-violet light.**

**The simple lens change system** makes it easy to quickly adapt to the work environment: indoors (clear) and outdoors (solar).

Lenses with **anti-scratch treatment** (longer life of the goggles) and **anti-fogging treatment** (clear vision even in sudden temperature changes).

Marking 3 4 B T: protection against liquids and coarse powder particles. Highly resistant to impacts at extreme temperatures.

### LENS CHANGE PROCEDURE

Quick-release mechanism

Simple lens change

Prescription lens supplement

## Neutral eye protection

<b>Standard and certification</b>	EN 166/EN 170/EN 172												
<b>Applications</b>	Protection against medium-energy and high-velocity impacts or projections at extreme temperatures: BT marking. Protection against liquids (3) and coarse powder particles (4). Highly recommended for use in agricultural activities, forestry, hunting, work with lathes, polishers or mills, automotive industry, textiles, plastics, construction, quarries, etc. For jobs that require prescription panoramic goggles. Recommended for work in hot or variable-temperature environments, thanks to the anti-fogging treatment. Solar version for outdoor work.												
<b>Conservation Storage - Expiry</b>	In order to maintain the spectacles in good condition, keep them in a clean, dry place in their appropriate case.												
<b>Directions Use</b>	Cleaning: use warm water and a neutral soap. Do not use abrasives or solvents. Rinse in water and dry with a soft cloth. Medop anti-fogging cleaning spray is also recommended. We advise regular inspection of the protectors, and their replacement if they have deteriorated in any way. Please ensure that the risk present in the workplace corresponds with the field of use of these protectors.
