Prescription eye protection

Standard and certification	EN 166																								
Applications	Impact protection. Modern and light spectacles, highly recommendable for plant technicians, parts inspectors and office workers with occasional warehouse and production plant visits...																								
Conservation Storage - Expiry	In order to maintain the spectacles in good condition, keep them in a clean, dry place in their appropriate case.																								
Directions Use	Cleaning: use warm water and a neutral soap. Do not use abrasives or solvents. Rinse in water and dry with a soft cloth. Medop anti-fogging cleaning spray is also recommended. We advise regular inspection of the protectors, and their replacement if they have deteriorated in any way. Please ensure that the risk present in the workplace corresponds with the field of use of these protectors.																								
Presentation	NEUTRAL sale units: 12 units per box. 30 boxes per carton. (Prescription lens spectacles: no minimum units required)
